NOTICE:

TO CUSTOMERS OF THE SHELBYVILLE MUNICIPAL WATER & SEWER COMMISSION REGARDING THE "CONSUMER CONFIDENCE REPORT"

The Federal EPA has required all water companies across the nation to provide their customers with a report that summarizes the constituents that may be found in their drinking water. This report is known as the CCR, or Consumer Confidence Report.

The Commission wholeheartedly supports this method of communication with their customers. We have recently mailed a copy of the report to each billing address, which includes 6,141 customers, at a cost in excess of \$6,500.

Even with this massive mailing not all persons that drink our water will receive a copy of the CCR. For example, persons living in an apartment complex without individual water meters; or employees of a company, that are not directly billed will not receive this report.

Those persons that do not receive the report may request from their employer, or landlord that a copy be posted for their information.

In order to keep the Commission's expenses down, the Commission will not mail out copies of the CCR. A limited amount of copies are available at the Commission's Offices located at 1059 Washington St., Shelbyville, Ky.

BEFORE THE PUBLIC SERVICE COMMISSION

In the Matter of:

PURCHASED WATER ADJUSTMENT OF)
WEST SHELBY WATER DISTRICT)

CASE NO. 99-405

O R D E R

On September 27, 1999, West Shelby Water District ("West Shelby") applied for approval to adjust its rates pursuant to the purchased water adjustment procedure. KRS 278.015 and 807 KAR 5:068. West Shelby's application was rejected pursuant to 807 KAR 5:001, Section 2(2), for its failure to include a copy of supplier's notice of the changed rate and the effective date as required by 807 KAR 5:068, Section 3; and for its failure to include information sufficient to determine the accurateness of the calculations of the purchased water adjustment as required by 807 KAR 5:068, Section 3(1).

On October 25, 1999, West Shelby submitted an amendment to its original application along with the other necessary information and its case was officially filed.

The Commission, having reviewed the record and being sufficiently advised, finds that:

1. West Shelby purchases water from three suppliers, Shelbyville Municipal Water ("Shelbyville"), North Shelby Water Company ("North Shelby"), and Louisville Water Company ("Louisville").

2. Shelbyville increased the wholesale water rate charged to West Shelby from \$1.15 per 1,000 gallons to \$1.37 per 1,000 gallons effective June 1, 1998. North Shelby increased the rates charged to West Shelby, effective March 12, 1999, as follows:

First	2,000	gallons	from	\$10.94	to	\$11.14	Minimum bill
Next	3,000	gallons	from	4.35	to	4.45	per 1,000 gallons
Next	5,000	gallons	from	3.23	to	3.33	per 1,000 gallons
Next	40,000	gallons	from	2.67	to	2.77	per 1,000 gallons
Over	50,000	gallons	from	2.11	to	2.21	per 1,000 gallons

Louisville did not increase its rate to West Shelby.

3. During the 12 months ending July 31, 1999, West Shelby purchased a total of 208,022,300 gallons of water and sold 186,269,900 gallons.

4. The increase in the cost of purchased water is \$27,159.52, resulting in a purchased water adjustment of \$0.15 per 1,000 gallons of water. Based on a monthly usage of 5,000 gallons, the average bill of a West Shelby customer would increase \$0.75 from \$22.42 to \$23.17 or 3.3 percent.

5. The purchased water adjustment of \$0.15 per 1,000 gallons and the rates in Appendix A, attached hereto and incorporated herein, are fair, just, and reasonable and should be approved.

IT IS THEREFORE ORDERED that:

1. The purchased water adjustment of \$0.15 per 1,000 gallons and the rates in Appendix A are approved for services rendered on and after October 25, 1999.

2. The revised tariff submitted by West Shelby is hereby rejected as filed because minimum bills for the 3/4 inch, 1 inch, 1 1/2 inch, 2 inch, and 3 inch meters are calculated incorrectly.

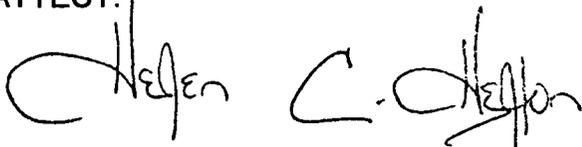

3. Within 20 days from the date of this Order, West Shelby shall file a copy of its revised tariff.

4. Within 20 days from the date of this Order, West Shelby shall file a copy of the notice to its customers and verification that such notice has been given.

Done at Frankfort, Kentucky, this 17th day of November, 1999.

Filing Deficiencies

Dear Mr. Larmee:

The Commission staff has conducted an initial review of your filing in the above case. This filing is rejected pursuant to 807 KAR 5:001, Section 2, as it is deficient in certain filing requirements. The items listed below are either required to be filed with the application or must be referenced if they are already on file in another case or will be filed at a later date.

Filing deficiencies pursuant to 807 KAR 5:068, Section 3:

- 1) Copy of supplier's notice of the changed rate and the effective date.
- 2) Section 3(1) Application must contain information sufficient to determine the accurateness of the calculations of the PWA.

The statutory time period in which the Commission must process this case will not commence until the above-mentioned information is filed with the Commission. You are requested to file 10 copies of this information within 15 days of the date of this letter.

If you need further information, please contact Renee Curry of my staff at (502) 564-3940, ext. 228.

Sincerely,

RE: Water Rate Increase

Dear ~~Mr. L. Compton~~ *Wanda*:

The Commission is in process of increasing both Water and Sewer Rates, effective with the June 1, 1998, billing date. This will affect usage for the Water Districts for the period of April 19 to May 19, 1998.

The general rate increase for water is necessary due primarily to the costs related to the proposed expansion of the Water Treatment Plant from 4.6 MGD to 6.0 MGD. In addition, funding is being requested for an estimated \$1.16 million dollars in Distribution system improvements. As you are well aware, operating costs have escalated over the last several years due to EPA requirements that have and will continue to impose more stringent requirements on water quality [with associated testing costs], and the spiraling labor costs and increased staffing requirements in the Water Treatment Industry.

Below is a history of rates to the Water Districts for the last several years:

	1981	1994	PROPOSED 1998
Rate	\$1.00/1,000 gal	\$1.15/1,000 gal	\$1.37/1,000 gal

Our consultant, Howard K. Bell, Consulting Engineers, has recently completed a Rate Study. {Copies of relevant portions are enclosed as Enclosure (1)}. A summary of the Consultant's calculations for the cost of water, with customer costs excluded, follows:

CASH BASIS

\$1.73/1,000 gal

UTILITY BASIS

\$1.86/1,000 gal

In the enclosed information, you will see that the Consultant has recommended rates to the Districts that range from \$1.51 to \$1.65/1,000 gallons, due to the contractual requirement with North Shelby stipulating that the rate to North Shelby shall not exceed the lowest rate of the Commission to its customers. {Enclosure (2) enclosed shows the overall rate

EXHIBIT B

increases recommended to the City Council } As is obvious the rates to the Districts are lower than that required by the Cash Basis and the Utility Basis for Rate determination, due mainly due to the declining Rate Scale used by the Commission.

If you have any questions, don't hesitate to call. I would be pleased to meet with you to discuss any items in detail.

Sincerely,

Gene P. Fouts P.E., C.P.E.
